

BANDI SUSMITHA REDDY

Career Objective

To secure a challenging position in a reputable organization where I can apply my engineering knowledge, programming skills, and problem-solving abilities to develop innovative solutions, contribute to impactful projects, and continuously grow as a technology professional.

Education

Vignan's Nirula Institute of Technology and Science for Women

2023 – 2027

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering (ECE)

Guntur, Andhra Pradesh

- CGPA: 8.4/10 (Current)

Sri Chaitanya Junior College

2021 – 2023

Intermediate (MPC)

Hyderabad, Telangana

- Percentage: 92%

SDR World School

2021

Secondary School Certificate (SSC)

Nandyal, Andhra Pradesh

- Percentage: 99%

Internships

Infosys Springboard Virtual Internship

January 2026 – March 2026

AI Intern

Virtual

- Completed a virtual internship focused on Artificial Intelligence and Machine Learning concepts.
- Developed a Machine Learning Based Phishing Website Detection and Classification System as the capstone project.
- Gained hands-on experience with Python, Pandas, NumPy, Scikit-learn, and Machine Learning workflows.

Projects

Library Management System | *Python* | [GitHub](#)

July 2026

- Developed a Python-based Library Management System to automate book, member, issue, and return management.
- Implemented search, record management, and file handling using Python data structures.
- Designed a menu-driven interface for efficient and user-friendly library operations.

Machine Learning Based Phishing Website Detection System

March 2026

- **Technologies:** Python, Scikit-learn, Pandas, NumPy, FastAPI
- Developed an AI-powered system to classify websites as phishing or legitimate using Machine Learning.
- Performed data preprocessing, feature extraction, model training, and evaluation for accurate prediction.

IoT-Based Smart Home Monitoring and Protection System

2026

- **Technologies:** IoT, Raspberry Pi Pico W, Wokwi, Embedded Systems
- Designed an IoT-based smart home safety system for individuals living alone.
- Integrated gas, temperature, motion, and fall detection sensors and simulated the system using Wokwi.

Technical Skills

Programming Languages: Python (Intermediate), Java (Basic)

Web Technologies: HTML (Basic)

Version Control: Git (Basic), GitHub (Basic)

Development Tools: Visual Studio Code (Basic)

Productivity Tools: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

Soft Skills: Problem Solving, Communication, Adaptability

Leadership & Extracurricular

National Service Scheme (NSS)

2023 – Present

NSS Coordinator

- Coordinated community service programs, awareness campaigns, and volunteer activities.

Institution of Electronics and Telecommunication Engineers (IETE)

2023 – Present

Student Member

- Participated in technical workshops, seminars, and professional development activities.

Make A Difference (MAD)

2023 – 2024

Volunteer

- Supported educational and social welfare initiatives for underprivileged children.

Achievements & Certifications

- Selected for the **Smart India Hackathon (SIH)** at the institute level.
- Solved **500+ coding problems** on CodeChef and other coding platforms.
- Successfully completed the **Infosys Springboard Virtual Internship** in Artificial Intelligence and Machine Learning.
- Earned the **WebML102: Google AI for JavaScript Developers with TensorFlow.js** certificate.
- Awarded the **Certificate of Merit** in the **Naukri Campus Young Turks** program.
- Participated in multiple technical events organized by **Naukri Campus**.
- Successfully completed the **Printed Circuit Board (PCB) Workshop** conducted at Vignan's Nirula Institute of Technology and Science for Women.
